

REACH STATEMENT

REACH is a European Union regulation concerning the Registration, Evaluation, Authorisation and restriction of Chemicals. It came into force on 1st June 2007 and replaced a number of European Directives and Regulations with a single system.

1st Millennium Electronics Ltd has contacted all of our suppliers and to the best of our knowledge and belief none of the articles that we sell intentionally contain any of the 250 Substances of Very High Concern (SVHC's) currently on the candidate list in concentrations of >0.1% by weight.

The list of substances can be found at:

<https://echa.europa.eu/candidate-list-table>

Registration is required for companies that either produce or import into the EU any substance in volumes that exceed one tonne per substance.

1st Millennium Electronics Ltd does not exceed this import amount, and will therefore not be required to register. If you have any specific concerns regarding the composition of a particular part / parts, please do not hesitate to contact me and I will forward your concerns on to the relevant manufacturer(s) for their response.
